

William  
Tell-s all

Last month Bill Care gave an excellent demonstration covering a whole series of basic points in a manner that was of benefit to novices and advanced turners alike.

Bill covered the usage of all the basic tools showing how they should be used to best advantage in each case.

*Age appears to be best in four things; old wood to turn, old wine to drink, old friends to trust and old authors to read.*

### Digital Moisture Meter for £13.49p !!!

I came across this little digital moisture meter on ebay recently. The instruction book, apparently, is printed in English as well as Chinese but I've no idea where it comes from.

Why don't you buy one and then let me know whether it works satisfactorily or not?

I'd rather risk wasting your money than mine!!!

## Members' Work

*Last month saw a surfeit of members' work brought in for display, far too much for one newsletter so I will put remainder in 'Reserve' Folder and save for a rainy day.*

Bill brought in a sample of his work with Tunbridge Ware last month. They say a picture says a thousand words but, for an ignoramous like me, it needs far more than that to determine how I could arrive at an end product like this. In cut sections it would make a great box insert.
